Contribution ID: 26

Type: **sectional reports**

Cloud Infrastructure at JINR

Monday, 30 June 2014 14:30 (15 minutes)

Cloud technologies start to gain popularity in academic field. Modern scientific centers use clouds for their everyday work. The article describes the cloud infrastructure deployed at the Laboratory of Information Technologies of the Joint Institute for Nuclear Research (LIT JINR). It explains the goals of its creation, specifics of the implementation and utilization, current work and plans for the future.

Primary authors: BARANOV, Alexandr (JINR,LIT); BALASHOV, Nikita (JINR,LIT); KUTOVSKIY, Nikolay (JINR,LIT)

Co-author: SEMENOV, Roman (JINR,LIT)

Presenter: BARANOV, Alexandr (JINR,LIT)

Session Classification: Section 1 - Technologies, architectures, models, methods and experiences of building distributed computing systems. Consolidation and integration of distributed resources

Track Classification: Section 1 - Technologies, architectures, models, methods and experiences of building distributed computing systems. Consolidation and integration of distributed resources
