

# The 6th International Conference "Distributed Computing and Grid-technologies in Science and Education"

## Tuesday, 1 July 2014

### Section 8 - Optimization problems and distributed computing - 310 (16:30 - 19:00)

-Conveners: Alexander Afanasiev

time	[id] title	presenter
16:30	[47] Промежуточное программное обеспечение, предоставляющее контроль над балансировкой нагрузки уровню бизнес логики приложения	IAKUSHKIN, Oleg
16:50	[70] Implementation of the optimal trajectories continuation method in a distributed computing environment	Prof. AFANASIEV, Alexander Ms PUTILINA, Elena
17:10	[41] An automated system for program parameters fine tuning in the cloud	Mr SMIRNOV, Sergey
17:30	[105] High-level optimization modeling software in distributed computing environment	Mr VOLOSHINOV, Vladimir
17:50	[104] Customizable system for coarse-grained parallel schemes in branch-and-bound algorithm for discrete optimization	Mr SMIRNOV, Sergey
18:10	[93] Solving large scale optimization problems on desktop grids and combined distributed infrastructures	Dr POSYPKIN, Mikhail
