

XXIV International Baldin Seminar on High Energy Physics Problems
"Relativistic Nuclear Physics and Quantum Chromodynamics"

XXIV International Baldin Seminar
on High Energy Physics Problems
Relativistic Nuclear Physics & Quantum Chromodynamics
September 17 - 22, 2018, Dubna, Russia

Contribution ID: 59

Type: **not specified**

How to measure the linear polarization of gluons in unpolarized proton using the heavy-quark pair leptonproduction

Monday, 17 September 2018 16:20 (30 minutes)

Presenter: IVANOV, Nikolay (Veksler and Baldin Laboratory of High Energy Physics, JINR, Dubna, Russia)

Session Classification: Parallel: Quantum chromodynamics at large distances
