The 7th International Conference "Distributed Computing and Grid-technologies in Science and Education" (GRID 2016)

Thursday, 7 July 2016

10. Databases, Distributed Storage systems, Big data Analytics - 406A (13:30 - 15:00)

time	[id] title	presenter
13:30	[120] Grid datasets popularity estimation using gradient boosting	CHERNYUK, Daria
13:45	[101] Comparison of Parallelization Methods in New SQL DB Environment	Prof. DEGTYAREV, Alexander Prof. SHICHKINA, Yulia
14:00	[130] PhEDEx - main component in data management system in the CMS experiment	Mr VOYTISHIN, Nikolay
14:15	[69] DATA GRID AND THE DISTRIBUTED DATABASE SYSTEM	Mr KYAW, Thurein
14:30	[103] Processing of Multidimensional Data in Distributed Systems for Solving the Task of Tsunami Waves Modeling	Mrs SVESHNIKOVA, Svetlana
14:45	[108] Разработка комплекса баз данных для эксперимента CBM	Mr ALEXANDROV, Evgeny

10. Databases, Distributed Storage systems, Big data Analytics - 406A (15:30 - 17:15)

time	[id] title	presenter
15:30	[109] Разработка и внедрение системы электронного документооборота "СЭД Дубна" в ОИЯИ.	YAKOVLEV, Alexander
15:45	[76] Grafana и Splunk как пример решения проблем визуализации данных в современных системах сбора информации.	Mr MINEEV, Mikhail
16:00	[81] The Automation of the content filling for JDS system	Ms ZAIKINA, Tatiana
16:15	[61] Создание, поддержка и развитие модели интерпретации смыслов	FILOZOVA, Irina
16:30	[148] Adaptive method for computer-aided translation of research and technology texts	INKINA, Vera
16:45	[147] Multidisciplinary digest structure formation methods	KSHNYAKOV, Dmitry
17:00	[149] Scientific visualization of information analytical researches	IONKINA, Kristina
