

JOINT INSTITUTE FOR NUCLEAR RESEARCH

PROTOCOL No. 132

Science and Technology Council (STC) of the Laboratory of Radiation Biology (LRB)

30 July 2019

Membership of the STC: 13. Attended: 13 members.

Agenda: Appeal by the LRB STC to the JINR Scientific Council

Heard: Report by the LRB Deputy Director for Research, **Gennady Timoshenko**, Dr. Phys.-Math., "On election of the LRB Director."

Resolved: to forward an appeal to the JINR Scientific Council and place it in the "Elections" section, <http://indico.jinr.ru/event/956/>.

Voting results: 13 for, 0 against, 0 abstained.

APPEAL BY THE LRB STC TO THE JINR SCIENTIFIC COUNCIL

In connection with the nomination of the following two candidates for the position of the LRB Director:

- **A.N. Bugay**, Dr. Phys.-Math; the candidacy has been suggested by the current LRB Director E.A. Krasavin;
- **O.V. Belov**, Cand. Biol., a former LRB scientist;

the LRB STC, as a collegial body expressing the opinion of the Laboratory's leading staff, is requesting the JINR Scientific Council members to support the candidacy of Dr. **A.N. Bugay** in the election of the LRB Director.

Alexander Nikolaevich Bugay has been working at the LRB since 2008 and has proved to be a responsible and efficient leader with systematic and creative thinking, as well as a thoroughly decent and communicative person who has acquired authority among the Laboratory's staff. The LRB STC is convinced that A.N. Bugay will ensure the continuity of the LRB's successful work. We look forward to E.A. Krasavin being the Laboratory's Scientific Leader, which will allow A.N. Bugay to adapt quickly to the Director's position, maintain the traditions of the Laboratory's fields of research, and keep a healthy working atmosphere among the staff. A.N. Bugay's candidacy has been supported by JINR Director V.A. Matveev and Plenipotentiaries of a number of countries with which the LRB has been fruitfully collaborating in radiobiological research for many years.

V.E. Aleinikov
Chairman, Science and Technology Council
Laboratory of Radiation Biology

I.V. Koshlan, Cand. Biol.
Scientific Secretary, Science and Technology Council
